

Robert Smith
Westbrook
LD 1343

I am in opposition to LD 1343.

It is highly inappropriate to use a sledge hammer to all abortion regulation in the State of Maine. What is there being proposed to replace the regulations already on the books? Or is it the intent of the sponsor(s) to make Maine an unregulated state lacking in any safeguards for anyone and removing all licensing and regulation on reproductive procedures, practitioners and patients. Maine would become the Wild West of reproductive care. How many Mainers would die as a result of this legislation? Bad bill. Vote No.
