

Brian Swartz
Hampden
LD 1619

I am Brian Swartz, from Hampden.

I am testifying against LD 1619, a bill that would allow unborn babies to be killed up to the moment that they were born. To kill babies who would be viable outside the womb is an abomination; this bill would place Maine among the few states that allow such horror to be inflicted on babies who could otherwise live if allowed to be born.

I ask that the Judiciary Committee vote LD 1619 as "ought not to pass."

Thank you very much.
