Windham  
LD 1619

I believe this is an excessive expansion of abortion Law. Every time a child grows in womb the Lord creates a soul. No man or woman has the right to Abort this child. Certainly not after the point of viability. It used to be said the abortion should be safe and rare. Why are keeping the abortions secret from the parents and the father? Why is the Health of the mother no longer a concern. By eliminating penalties for unlicensed persons to perform abortions aren't we allowing unlicensed abortions to happen. This bill has too many intentional loop holes that both endanger the mother destroy a viable child and deny the father any rights
