LD 1619 An Act to Improve Maine's Reproductive Privacy Laws

This proposal runs counter to the most basic principles of freedom in our country. Everyone has a right to life, liberty, and the pursuit of happiness - this includes those who are pre-born. The murder of children in utero ought to be a crime punished by law. Neither science nor philosophy has been able to identify a clear marker that would separate a fetus in utero from a child who has been born. Therefore they have the same rights as any citizens outside of the womb. It is our duty to protect these little ones who cannot defend themselves. Please vote OUGHT NOT TO PASS.
