

Neil Albee
East Machias
LD 1619

This note is to the Senators and Representatives of Maine about LD1619. Honestly I believe to pass this one would be doing the devils work. I just ask you to take a few moments before you vote to consider what it would be like to listen to the heartbeat of the child before it was aborted. It is a fact that most mothers who listen to the heartbeat of the child before abortion change there mind and keep the child. Also I can only wish you had a chance to listen to a testimony of a person who survived a abortion attempt so you could be reminded how precious life is. I pray your conscience is with you. Thanks so much for reading!
