Abortion at any term is MURDER . God gives life . These women say “my body my right!” . I agree they have a body and they have rights to their own body , but a baby in their womb is not

“ their body “ it’s a separate human being , with its own body, soul, and spirit . Their body their right , to what? take a human life that isn’t their own ?To kill a human being at any point after conception is murder and to kill a voiceless , defenseless, innocent life ? Sad , this is where we are at in our culture today . pregnant woman does not have the right to terminate a life that is not their own, It’s not their life to take.
