

David Leighton  
Stetson  
LD 1619

As a tax payer of Maine, I am not in agreement with LD 1619. This bill would make Maine have one of the most extreme abortion laws in the entire country. No baby should be allowed to be killed, especially if it could survive outside of the womb. I stand for life and there should not be any abortion at any time for any reason. This Governor is pushing a very extreme agenda. There are already laws on the books for medical necessity, so there is no need to consider making new legislation. Also, making medical plans pay for this and allowing tax payer dollars to pay for abortions should not be allowed. If people don't want to get pregnant, there are many ways to do this and education is the key.
