

Senator Carney and Representative Moonen, Honorable members of the Joint Standing Committee on Judiciary. My name is Charlis Sullivan and I am here to testify in opposition of LD 1619. As a former educational administrator, I helped others to obtain jobs, high school diplomas and college degrees to help pave a better way for their lives. LD 1619 is counterintuitive to preserving and protecting the lives of the least of these. I know that a great many of you are concerned about freedom of choice and liberty, but a baby that can live outside the womb is completely deprived of its life and liberty with this unprecedented extreme bill. It is unfathomable that we should consider taking the life of a baby that is capable of sustaining life outside of the womb. This bill is dangerous and unethical! Shall we be the determiners of life and death? Is this not infanticide? The decision of this bill will be our legacy.

I thoughtfully request that you reconsider this unconscionable and horrendous act.

Thank you!

CHARLIS SULLIVAN
CARIBOU
LD 1619

Senator Carney and Representative Moonen, Honorable members of the Joint Standing Committee on Judiciary. My name is Charlis Sullivan and I am here to testify in opposition of LD 1619. As a former educational administrator, I helped others to obtain jobs, high school diplomas and college degrees to pave a better way for their lives. LD 1619 is counterintuitive to preserving and protecting the lives of the least of these. I know that a great many of you are concerned about freedom of choice and liberty, but a baby that can live outside the womb is completely deprived of its life and liberty with this unprecedented extreme bill. It is unfathomable that we should consider taking the life of a infant that is capable of sustaining life outside of the womb. Is this not infanticide? Do we want this to be our legacy?

I thoughtfully request that you reconsider this unconscionable and horrendous act.
Thank you!
