LD 1619

I, Candis Bradford, oppose the proposed bill LD 1619. I believe that life begins at conception. Murder is defined as premeditated killing of one human being by another. To abort a baby is premeditated, therefore murder. This bill to allow abortion after viability is outrageous. The bill states that the State not restrict a women's exercise of her private decision to terminate a pregnancy. What about the right of the child in which she carries? What if that child is female? I am using my voice to speak on behalf of those children whose right to live will be taken away. I believe our efforts shouldn't be used to propose bills like this, but in ways to provide help and resources for mothers, babies, and families. We can do better than this. We must do better than this.
