

Patricia Makley  
West Paris  
LD 1619

I am not in favor of LD 1619 becoming the law of Maine. It is clearly not a good law for some yet unknown babies awaiting their turn to see the light of day. I believe it is also not good for this being's parents, siblings, grandparents, community, etc. It is not a good action for this legislative body to allow anyone to take life and liberty from those about to begin the adventure of feeling the sun on their faces, milk in their mouths, etc. Have mercy!
