

Heather Archer
Exeter
LD 1619

Good afternoon,

Please accept this testimony on LD1619. I am writing as a Maine resident, American taxpayer, and a mother. LD 1619 ought not to pass.

Maine has some of the most lenient abortion laws in the country. mills stated during her campaign, she would not change anything. So we should not even be here, discussing this drastic change.

If this passes, perfectly healthy, viable, innocent little babies will be murdered. There will be no limits, no reasons, and no humanity. Maine is a wonderful state, it should not become a place where people travel to murder innocent babies because we have no limits.

Please vote ought not to pass on LD 1619.
