

Diana Laing
Searsmont
LD 1619

Speaker Talbot Ross and members of the Judiciary committee, I, Diana Laing of Searsmont oppose the bill and am asking you to reject this bill LD1619. This bill condones the murder of a viable human for any reason. The portion of this bill that erodes the standards that the medical personnel performing the procedure are held to (no liability) will not protect the patient to any errors either. Maine will be known as the abortion capital of the world. - not a title that we would be proud of. Thank you for this opportunity to submit this statement.
