

Barbara Forrest  
Lincolnvile  
LD 1619

Speaker Talbot Ross and members of the Judiciary committee. I, Barbara E. Forrest of Lincolnvile, oppose bill LD 1619. I was present at the State House yesterday, May 1st, and can attest that there were hundreds of others present that also feel the same way. This is a horrible bill being proposed. When a viable baby can be aborted for whatever reason, can you truly call this anything but murder? I think not! I'm thankful to have this opportunity to submit this statement. Thank you.
