I'm an Spanish exchange student I'm 15 years old

In Spain and most of Europe we can only abort until 14 weeks we would never get to this point. This is just America.

And in Spain we have a Christian believes and values. What a coincidence? Right.

The state motto of Maine I'm sure you know, is dirigo, which means I lead. Do you really want to be leading your country into such a horrific action?

Also where is the freedom of speech that America is known for.

It is shameful that you are cutting our time in half and cutting us off from speaking because you want to go home early. We are tired too but we are standing up for the right to life. Clearly you can see how committed the pro-lifers are.

Again I'm just 15 years old but think about what you are doing and how many lives are going to be taken away

Thanks for listening

God bless
