

Janet Drew
York
LD 1426

I don't comment here on this bill 1426 specific provisions, I do say that
Maine and the US need to use proven interventions to address needs of an increasing
number of struggling individuals and families.

There are bills here today (182, 183...) placing new restrictions on public assistance.
This punishes kids & families, creating more vulnerable communities & mental health
crises.

Budgets matter

We spend more & more tax \$\$ for cops and jails, for arresting & housing poor and
sick people behind closed doors harming kids, families & communities

Let's spend money to help families succeed
