I'm not one to write letters or contact legislators but I cannot be silent. I must be a voice for those who can't speak for themselves. The millions of unborn who if given the choice would cry out Let me live ! I guarantee if given the choice all would choose life .

In order for society to function we must as a people respect life. All life and life from its very beginning. We have learned a lot over the past 50 years since Row V Wade and we can no longer as a people be ignorant to the fact that there is a life inside the womb. As I write this letter my wife is nine months pregnant. My very active baby girl is about to join this world. I am saddened and sickened that I live in a state where potentially so many like mine will never be given that opportunity for life.

I plead with our Governor and every legislator to please vote and support life.
