

LD1197

I am writing today in support of LD 1197. Women have been lied to for as long as I can remember and that's a long time now. Women have been told that their baby was only a clump of cells and now we know that was a lie and is still being said to lie about. Every patient has a right to know they are being told the truth and not being lied to. It is now your responsibility to assure that they are not being lied to. They cannot be expected to make a life altering decision without know they are getting the truth. Again I would like you to vote ought to pass on LD 1197

Thank you
