

Sandra Farrar  
Sumner  
LD 1619

Senator Carney, Representative Moonen, and members of the Judiciary Committee,  
My name is Sandra Farrar of Sumner. As a blessed mother of two, I know that a pregnancy is a beautiful life. I was 16 when I first became pregnant. There was not a pressure to abort at that time (I am an 85 year old woman), however I was not allowed to finish high school. That was the culture for the time. I later went on to get my GED and then earned my associates degree at 29.

Over the course of my lifetime, I have known many young girls who aborted, mostly out of convenience. I now know that I have had 2 great grandchildren who also have been aborted.

A pregnancy is a beautiful life, so much potential has been destroyed by abortion. I can understand that pregnancy can be seen as an inconvenience, but each child should be allowed to live. Options to adopt are available.

I strongly oppose LD 1619; please vote OUGHT NOT TO PASS.
