

LD771

I am writing today in support of LD771 we have all been there done something then decided that we shouldn't have. Bought an item but we have three days to bring it back. Unfortunately the killing of an unborn baby can't be undone three days later. If the woman seconds before has an epiphany then her wishes at that moment should be respected no matter what. We are not talking about a washing machine we are talking about a human life.

I strongly urge you to vote ought to pass on LD771

Thank you
