Dear Committee Members:

Leave it alone. Do you need to be reminded that this is NOT YOUR MONEY \$\$\$ that you spend. Give the taxpayers a break. No more FREEBIES!!! The bill also directs the department to establish a working group to study and make recommendations related to a uniform intake process and the conversion of the general assistance program into a housing assistance program. Why has this not been done before? Also, why are welfare recipients not checked upon so that they are not lying about needing welfare?

I ask that you vote OUGHT NOT to PASS, Thank you.
