Testimony in Support of LD 771, LD 1197, and LD 1614

Dear Senator Carney, Representative Moonen, and honorable members of the Joint Standing Committee on the Judiciary:

My name is Stephanie Anderson, and I live in Cape Elizabeth.

During her May 1 testimony on LD 1619, a pastor of the Unitarian Universalist Church characterized bodily autonomy and choice as “sacred”.

When it comes to reproductive freedom, Maine is proudly a pro-choice state. This has been our law since 1993. Pregnant women in Maine have a choice to either have an abortion or have a baby. Both choices are forever choices.

A choice is an act of selecting or deciding when faced with two or more possibilities.

To make an intelligent choice, a real choice, the right choice for that woman— a woman facing a decision to have an abortion or to have a baby ought to have the full panoply of information about those two choices available.

Without being provided to information about alternatives to abortion, pregnant woman cannot make a real choice. This is why I urge you to support LD 1614.

Without the right to withdraw consent for an abortion, pregnant women do not have a real choice. The right to choose cannot exist without the right to un-choose. To support a woman’s right to choose, the right to withdraw consent must be protected. This is why I urge you to support LD 771.

A woman’s choice to have an abortion should always be knowing, informed, and freely given. She should never be coerced into having an abortion. This is why I urge you to support LD 1197.

Thank you for your attention and for your service.
