

Joel Chapman
Sumner
LD 1619

Senator Carney, Representative Moonen and members of the Judiciary Committee,

My name is Joel Chapman and I reside in Sumner. I am writing today in opposition to LD 1619.

It is very dangerous to cheapen human life because once you come to the place of disregarding the life of a baby, who is next? The mentally handicapped? The elderly?

Over the course of the last 30 years, I have spoken with many women who have had abortions and without exception, it haunts every single one of them.

I believe with all my heart that we will be held accountable for whether or not we defended the defenseless.

I urge you to vote ought NOT to pass on LD 1619.
