LD 771

Dear Judiciary Committee Members,

Please vote OUGHT TO PASS on LD 771. A woman, in particular minors, must be given every opportunity to withdraw consent to an abortion. A woman should not feel coerced into going through with an abortion for which she has provided prior consent. The lives of innocent children must be protected. This is a lethal decision that the child has no power to influence, every opportunity must be given for the mother to withdraw consent.
