

Rob Poissant
Gorham
LD 1614

Hello, my name is Rob Poissant. I reside in the town of Gorham .
I support and urge your support for LD 1614 - An Act to Require an Ultrasound and
Certain Counseling Before an abortion.

A woman who is pregnant must have the right to access the information which
includes medical information about the Abortion procedure and the access to the
viewing of an ultrasound , so she can make a fully informed choice. An ultrasound
would allow accurate information to promote a woman's physical and psychological
health.

One example of the necessity of an ultrasound is an ectopic pregnancy problem .
Please allow women the opportunity to have the vital information they need with
viewing an ultrasound so they can make a fully informed decision.

Thank you
