As stated in previous bills, I am a born again Christian and believe the Bible wholly. Based on the Bible life starts at conception and so therefore any form of abortion is killing a baby. Therefore there is no need for funding abortions because they shouldn't be happening. I also feel that this funding comes from tax dollars. My husband and I are older and living on Social Security and I feel my tax dollars could go for things that are right. Thank you for hearing my opinion and I hope it makes a difference enough to turn it down.
