LD 995 Robin Smith May 8th

Good Morning again, dear fellow-Mainers!

Thank you so much for your work and involvement.

I think LD 995 is a good idea. Where abortion is advocated, there should always be a second opinion, and I'm sure the patient would be gratified to hear that it was not necessary and that she had financial coverage as well for the second office visit. I heartily appreciate your work in trying to approve this bill for passage.
