

Jonathan Gardner
Waterboro
LD 1340

As a gun owner, hunter, and Registered Maine Guide, I am in favor of LD1340. I see no need for these type of devices for civilian use . These devices not only increase the risk of injury the the shooter, but also bystanders, neighbors, and fellow citizens. These rapid fire devices also send more lead downrange and ultimately into the environment; leading to potential problems for Maine's wildlife.
