

Brian Burwell
Freeport
LD 1340

Last month Washington became the tenth State (joining Massachusetts, Connecticut and New York among others) to ban assault weapons. The United States has experienced 190 mass shootings year-to-date. Our country is a tragic outlier compared to the rest of the world: Europe, with a comparable population, has experienced 7 mass shootings in the same period. Maine is not immune to mentally unbalanced and potentially violent citizens. How does it not make sense to help protect our families by supporting LD 1340?

Sincerely,

Brian and Rose Mary Burwell
