LD 1735

Members of the judiciary committee:

I strongly advise that you vote a lot not to pass on 1735 regarding gender, affirming health care for out-of-state children. How dare this legislature encourage children from other states to come to MAINE to have their sex changed. Are we encouraging parents to leave their states with their children so that Maine will remove sexual organs? This is crazy. What is wrong with this state that we would even consider such a thing?? DON'T WE HAVE MORE CURRENT SURNAME THINGS TO BE SPENDING OUR TIME ON THEN THIS RADICAL IDEA?
