Falmouth
LD 958

Dear Committee Members,

Loons are amazing, beautiful creatures, and are a symbol of Maine. I am 13 years old. I have grown up seeing them and hearing them and watching them, and it horrifies me to know that they are in danger. If there is a way to help them, and we take the easier route, that is a betrayal of what humans are as a species. We build up, we create, and we admire. I can't control what happens today, but know that there are people watching you, that will base their future decision off of what you do.

I hope you will support LD 958.

Sincerely, Skye Glover
