LD 1340

Dear Members of the Criminal Justice and Public Safety Committee,

Please support LD 1340 which would make it a Class D crime to possess, transfer, or sell a rapid-fire modification device.

Rapid-fire modification devices convert semi-automatic weapons into extremely deadly automatic weapons of war.

There is no reason for owning one of these devices and no place for them in Maine.

Help keep Maine a safe state.

Please support LD 1430
