

Judy Icenogle
Winslow
LD 995

Senator Bailey, Representative Perry, and members of the Health Coverage, Insurance and Financial Services Committee:

My name is Judy Icenogle from Winslow, Maine and I SUPPORT LD 995.

Second opinions are so important, especially when concerning a recommendation to have an abortion for health or safety reasons by a health care provider. Coverage for the cost of a second opinion (specifically when it involves the life of an unborn baby) should be provided in writing by all health insurance carriers; just as it often is for most other major health concerns.

Sincere thanks for reading my email. I urge you to vote "ought to pass" on LD 995.
