

Robin Smith
HAMPDEN
LD 1614

I thoroughly support LD 1614, Abigail Griffin's Act to Require an Ultrasound and Certain Counseling Before an Abortion.

I thoroughly support this. I can not say it enough.

It is a need.

It is essential.

Many girls lives are changed, for the better, when they receive this counseling and see an ultrasound of a live baby, their own baby with his own heartbeat. It is very positive and changes the trajectory of their lives, both mom and baby.
