

Heather Keelty
Portland
LD 1340

Distinguished members of the criminal justice and public safety committee. My name is Heather Keelty and I'm a resident of Portland. I am a mother of two young children and although I have fortunately never been a victim of gun violence, seeing it in the news day, after day is wearing. I am strongly urging legislators to support this bill as enough is enough; these weapon accessories serve no other purpose than to increase the rate of fire to maximize the number of dead and wounded. hunters do not need bump stocks, and are actually inaccurate. This is an unnecessary accessory, the only purpose is to kill people. pretty much most of all mass shootings Use this type of accessory or rapidfire artillery and the least we can do is prevent this from being purchased. This has no effect on the hunting community of Maine, which I support and is a strong part of Maine heritage and community. I don't want to see or hear about any other people, especially main residents being injured by these type of accessories or guns. It's just smart gun safety.
