

Amy Crosby
Scarborough
LD 1340

Members of the Criminal Justice and Public Safety Committee, my name is Amy Crosby and I am a resident of Scarborough.

I'm writing in to oppose this act. There is no reason why someone should need to modify a firearm to fire more rapidly. These modifications are so often found to be used in mass shootings - the stories are the same every time. Opposing this is one small step of a much larger solution that needs to happen in order for my 5 and 7 year old children to not be fearful to attend school.

Thank you for your time and consideration.
