

William Donaghy  
Washington  
LD 1619

To the members of the Judiciary Committee and all legislators for the state of Maine-

I implore you to vote not to pass on LD1619.

You know as well as I do that abortion is not “reproductive health care.” A woman’s family physician or gynecologist can most certainly provide reproductive health care.

Abortion is the murder of an unborn child! All the euphemisms you employ will not change that.
