

Amy Grommes Pulaski
Portland
LD 1726

Please support LD 1726. Childcare is an essential component of our functioning society. It is needed for businesses, employees, school districts, local governments, fishermen, trade workers, healthcare, and more. Every industry depends upon childcare in order to go to work. Childcare is an essential component in our society, and right now there is not enough childcare, and childcare workers are not earning a living wage. Please support LD 1726 in support of childcare for working families. Thank you.
