

Linda Cray  
Brewer  
LD 1619

To the Chair and Honorable Members of the Judiciary Committee

My name is Linda Cray; I am a parent and grandparent who wishes to ask you to oppose LD1619 An Act to Improve Maine's Reproductive Privacy Laws. This is an extreme bill that reaches too far in the pursuit to ensure the right to chose. Please thoughtfully considered what this bill would allow. Taking the life of an innocent child right up until birth is, I believe, nothing short of murder. Please, don't we live in a civilized society? Also consider the impact on the mother -time has shown that many women suffer from the impact of their actions. I believe it would be extremely traumatic to know you choose to not let your baby, a full term baby, live. Current law already allows for medical necessity in cases of stillbirth, ectopic pregnancy,etc. Families are the most important, precious items we hold. Young people are our future - please protect them. Please oppose this unnecessary, extreme bill. Thank you
