

Kelly Coffin
Clinton
LD 1735

Honorable members of the Judiciary Committee, My name is Kelly Coffin from Clinton. LD1735 is crazy. Maine shouldn't consider anything to do with changing bodies of minors surgically or hormonally. This is SO dangerous. I have listened to several detransitioners, one named Chloe Cole, who regret permanently changing their bodies. The hormone blockers will cause IRREVERSIBLE conditions. Gender Dysphoria is MENTAL ILLNESS. You don't play along with a lie you use truth. The truth is there is no real studies here or elsewhere that prove this reduces suicide. I believe if a real study were done it would prove the contrary. Some European countries are now reversing this type of care. Research Scott Newgent to hear the truth about it. (He) states I will die early from this.
