

Nicholas Sevos
Searsport
LD 535

My name is Nicholas Sevos, and I am a resident of Searsport. When I went to look up this bill, there was only a short summary stating it would be for the purpose of "increase access to necessary medical care for certain minors". This sounds like a generalization of allowing children to receive hormonal therapies, surgical alterations, etc in the name of pushing a transgender identity on them. I say pushing because a child who is transgender is like a cat who wears a sweater; you can say they chose it all you want but we all know someone else made the decision. STOP SUPPORTING THIS MADNESS. A grown adult has the right to do what they want, even if we all choose (and should choose) to go along with it, but a child has no ability make such choices, to understand the full gravity of these choices and consequences of them. Every effort must be made to protect children from these lunatics, and it starts by not codifying even more allowances for this evil into law.
