

Susan Grant

LD 1735

I live in a NH city that borders Maine (Rochester). My entire life has been one of crossing into Maine for shopping, hiking, camping and religious experiences. I oppose this bill!

To even think of my loved one being given the LIFE ALTERING services you are proposing in this legislation makes me absolutely sick!!! You are crossing into an area that will have GRAVE consequences for the State of Maine!!!

If any person in Maine were to provide life altering medical procedures on my loved one, I vow to hold you personally responsible! This is NOT NECESSARY and would leave children and their families in a health crisis!!!

Mothers and fathers are responsible for raising their children!!! If a child opposes decisions their parents make, they can move out once they're legally an adult & are responsible for their own financial decisions!!! There are laws that protect children from abuse. This bill in itself is criminal!!!

You have crossed the line with this legislation!!! Legally and ethically!! This will destroy the State of Maine, economically!!
