

Rhiannon Olson
Machias
LD 1735

Madam/Mister Chair & Honorable Members of the Judiciary Committee,

My name is Rhiannon Olson and I live in Machias, Maine. I am writing this testimony in opposition of the LD-1735 bill. What are we allowing to be done to our children? What are we doing to our children? Our role in the lives of these precious children is to guide them, care for them, and protect them.. Yet this bill goes against every inch of that.

Our children, here specifically, our underage children, are being targeted, indoctrinated, put in danger, experimented on, sexualized, desensitized, groomed, and exploited. They are being misled, confused, and used even in the school systems by the prompting of sexual identity, prompting of using different pronouns and names, exposure to sexual material including masturbation, encouragement to explore sexual curiosities and confusion with radical measures that begin with chest binders, penis tucking, hormone replacements, that lead to and promote more extreme, permanent, and sadistic measures that include separation from parents, mutilation, double mastectomies, chemical castration, physical castration, child and trans kidnapping, sex trafficking, and even suicide.

We need to wake up and see the evil being done in this world and to our children! Children who have an imagination, who go through seasons of confusion, or may have an actual mental disorder called gender dysphoria and are being neglected proper attention. Children who under 18 years old need parental presence and permission to get tattoos or piercings, children that are not old enough to buy alcoholic beverages or nicotine, children that cannot enlist in the service without being 18 OR having parental consent, children whose brains are not fully developed..who really just need safety, truth, love, guidance, and protection, yet instead this bill is what is being considered.

Please I urge you to speak up and protect our children by voting no on bill LD-1735.
