

Teresa Egan  
Brownfield  
LD 1450

I am writing in support of the passage of LD1450. I feel that replacing the rails on the Mountain Division line with a pedestrian/bikeway is the most exciting transformation of that unused asset. It will be a rewarding addition to our town of Brownfield that currently does not have any safe space for bike riding, and will have the added benefit of being a shot in the arm for our economy. In order to move forward, it is crucial that funding this work is included. Please do not allow this project to languish for another decade. Please vote to approve LD1450. Thank you.
