Brownfield  
LD 1450

as a prior selectmen for 12 years in the town of brownfield maine. i support this 100%. the boost to tourism in our area would be felt as a trickle down effect. we do have small ponds but most have no public access. this trail would allow people to enjoy brownfield from the other side of the tracks to say. i encouraged people to expand the hiking trails in our town, i saw this as a source of revenue and an untapped market of outdoor enthusiasts. the trail would do the same. promote healthy living for our town and surrounding residents.
