

Libbet Cone
Portland
LD 1914

I am 72 years old. In 2015 I found myself in a 4 year depression(PTSD) that I couldn't get out of, despite constant and deep psychotherapy, medications, etc. I had been a successful professional, raised 2 children had a wide social network, and was an avid outdoor explorer. I had been researching the work being done with psychedelics and decided, despite it's illegality, to try it for myself, even tho' it was a risk legally to do that as all that was available was underground work. Over the next 2 years I had 3 experiences, the protocol for PTSD, and today I am happy to report that I am fully healed, have started a new business, and have returned to an active and full life, fuller and more joyful frankly than what I had been living before. Please vote for the passage of LD1914.
