Good afternoon,

I am testifying my concerns as a landowner who abuts the proposed rail trail. If I can be assured that as a homeowner on the trail that my privacy will be honored and maintained I can be a supporter of this trail; otherwise, I am not. There is definite concerns about sending traffic behind our homes. Our neighbors have small children and small animals that may stray into the trail. There needs to be a way to address this issue. We live in the country because we value our privacy. Thank you hearing my testimony. Sincerely, Michele Flaherty
