

My Name is Sandra Boutin, I live in Standish, I am writing in support of LD 404 to allow the Mountain Division corridor to become a trail & LD 1450 to help fund the building of the trail. The best use for the state-owned Mountain Division corridor is a wide paved trail for walkers, bikers, and runners, accessible to people of all ages and abilities. This trail extension will connect to the highly used Mountain Division rail-trail that already exists in Gorham and Windham. I enjoy the safety of walking and biking off the road with my dog and friends and meeting folks along the trail. It does my soul good being outdoors in nature and all weather. I feel this trail would also help our local businesses as I use many of the businesses in the towns where the trail is now.

Thank you,  
Sandra Boutin
