

Peggy Leonard
North Yarmouth
LD 209

LD 209 references unused rail bed that is parallel to an active rail line between Portland and Auburn, so we already have rail access between the cities. What we don't have are safe roads to walk or bicycle on and this trail would provide 26 miles of that access. We already have the fine example of the Eastern Trail to show us what this trail may become in the near future.

My husband and I live near n North Yarmouth and are avid cyclists and walkers and hope you support this trail to provide a safe way for families to enjoy all that this are has to offer.

Thank you.
