

Ellen Jankowski  
Portland  
LD 209

I am a resident of Portland, Maine and am also a Physician Assistant, providing primary care to this community. I am a HUGE proponent of LD209, not only for myself and my family and friends, but for my patients. The use of this trail corridor will allow physical activity to help make the surrounding communities as healthy as possible. This has such positive implications beyond the enjoyment of the recreational aspects.

Thank you for considering my testimony!!
