

Tom Reeves  
Gardiner  
LD 209

Senator Chipman, Representative Williams, and Members of the Transportation Committee:

My name is Tom Reeves and I live in Gardiner and strongly support the passage of LD 209 which would authorize the construction of a rail trail between Portland and Auburn. Having this trail would not only benefit the communities along it but would also draw visitors from across Maine and out of state. Maine needs more active transportation trails and what better way than to connect the state's two largest communities.
